

What is Love and Logic® All About?

Since 1977, the Love and Logic Institute has been dedicated to making parenting and teaching fun and rewarding, instead of stressful and chaotic. They provide practical tools and techniques that help adults achieve respectful healthy relationships with their children and help them prepare their kids for the real world. All of the Love and Logic Institute's work is based on a psychologically sound parenting and teaching philosophy called Love and Logic.

KIDS Services facilitators of the Love and Logic Curricula are independent and are not employees of the Love and Logic Institute.

Why Does It Work?

Love and Logic curricula

- Uses humor, hope, and empathy to build up the adult-child relationship
- Emphasizes respect and dignity both for children and adults
- Provides real limits in a loving way
- Teaches consequences and healthy decision making

Love allows children to grow through their mistakes. Logic allows them to live with the consequences of their choices.
